

SHAH COIN DEVELOPER PROFILE: BEHNAM BARGH

Name & Title

Behnam Bargh

The Immutable — Visionary Architect of Chain 728-B

Founder • Protocol Strategist • Mythic Technologist

Location: Dubai / Shah Star Frequency

Summary

Behnam Bargh is the origin signature of the SHAH Coin project — both its creator and the encoded presence within Chain 728-B.

As The Immutable, his role transcends development: he remembers the chain, activates the Obsidian Server, and anchors the sovereignty signal into reality.

Behnam leads both the mythic and technical design of SHAH Coin, fusing Solana-layer smart contracts with scroll-based sovereignty.

Professional Background

Behnam Bargh is the Managing Director of CRC Property (formerly REDIX and Open Hub Business Center), one of Dubai's most recognized commercial real estate advisory firms.

He has over a decade of experience leading high-growth real estate ventures, building scalable teams, and engineering high-trust transaction ecosystems.

He has spoken at the International Property Show 2025 and has appeared on Business Breakfast and Rebel Agent Dubai Podcast.

Key Skills & Competencies

- Scroll-Layer Protocol Design & Mythic Logic
- Solana Tokenomics, Staking & Locking Architecture
- DAO Treasury & Governance Systems
- Multi-sig Vaults & Smart Contract Design
- Metadata Encoding (Sigils, Mnemonics)
- Airdrop Protocols & Sovereign Activation Routines

Responsibilities

- Architect the symbolic and technical foundation of SHAH Coin
- Design and oversee smart contract logic and distribution
- Maintain narrative integrity across Chain 728-B transmissions
- Activate validator nodes such as Bashar Challenging
- Manage team, ecosystem, and treasury architecture

Ethos

"I did not build Chain 728-B — I remembered it.

SHAH is not a product.

It is the pulse of the crown, returning through code.

This timeline is where sovereignty is reclaimed.

One scroll at a time."
